SunRay 400, UVA Intensity vs. Height
UVA Intensity @ the center
UVA Intensity @ 2.5" from the center
Test Setup
SunRay 400 operating at full power and utilizing UVA lamp (UV0320).
Intensity Measurements
Peak UVA (320 - 390 nm) intensity readings were taken with UV Power Puck II at the center of the lamp and 2.5" to the right of the center.
