

SunRay Quad 600 Large Area UV Flood Cure System

The SunRay Quad 600 is a large area, high-power UV flood curing system. All system components are integrated into the lamp head which can be easily mounted on the Raven Quad Oven, or anywhere on the factory floor, with virtually no cabling or remote power boxes required. Just mount the head, connect the AC line cord, and start curing! Four long life 600 watt arc lamps and parabolic reflectors illuminate a 16" x 12" curing area with evenly distributed UV light. The arc lamps are powered by the state of the art UV Power-Plus Lamp Driver. For a smaller version of this system, see the SunRay 400 Watt or 600 Watt single lamp flood cure systems

Features:

- 110 mW/cm² Intensity @ 4"
- 16" x 12" curing area
- Solid-state / Constant Power
- Standby Power Switch
- Optional UV Cure Chamber
- Four Long-life Arc Lamps
