

**Dual-Lite
Two Lamp UV Cure Unit**

SPECIFICATIONS:

Power Requirements :
120V AC - 60 Hz
(220 V 50 Hz available)

Length: 7-7/8 inches
Width: 4-1/4 inches
Height: 3-5/16 inches
Weight: 1.8 pounds

Lamps:
(2) 9 Watt Florescent - G23
Wavelength: 365 nm

Output Power:
20mW/cm² @ 365nm

Designed specifically for fast and efficient UV curing, our Dual-Lite UV Curing Unit uses all the same dependable components as its "Big Brother" UV9W-2 Stainless Steel Unit, except in an economical plastic casing. Dual-Lite utilizes interior mirrors which can be cleaned or replaced for maximum light reflectivity.

Features include:

- Mirror finish interior for maximum light reflectivity
- Mirror Tray: Replaceable bottom to keep unit operating at maximum efficiency
- Open lamp design provides excellent versatility when introducing units for cure
- UV materials typically cures in seconds
- Units cured using UV technology typically require little buffing
- Handsome ABS plastic case
- Available in 365nm UV or 470nm Visible output wavelength
- 1 Year Warranty
