With its open design and rugged brushed stainless steel exterior, the UV9W-2 Bench-top UV Cure unit is ideal for curing small devices, or oddly shaped units that may not otherwise fit into a standard chamber. Built tough for manufacturing environments, yet stylish for the lab or office setting, this dependable equipment provides an efficient process at any level, utilizing the latest in ultraviolet technology.

Features include:

- Brushed stainless steel exterior for easy cleaning and professional appearance.
- Mirror finish interior for maximum light reflectivity.
- Tray Guard - Acrylic insert to protect bottom tray and provide easy access.
- Open design provides excellent versatility when introducing units for cure.
- Units cure in seconds.
- 1 Year warranty.
